### ***Claim Objections***

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 10-17 been renumbered to 8-15. Misnumbered claims 20-29 been renumbered to 16-25.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: There is prior art disclosing the automatic ordering of ink or toner using a printer device (i.e. Sekizawa, U.S. Patent No. 6,430,711), but it does not disclose the ability of the printer to track the orders. No prior art disclosing order tracking techniques (i.e. Martin et al, U.S. Patent No. 5,809,479, Johnson et al, U.S. Patent No. 5,712,989) have been found to disclose that such techniques can be used in a printer. The reason for the allowance is no prior art of record have been found to suggest the integration of the automatic ordering as well as the tracking of the order in a printing device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
